Spain is a land steeped in artistic innovation, cultural diversity, architectural wonders, celebrated cuisines, and the legacies left behind by the Roman era, Moorish rule, and the Age of Discovery. This 11-day trip to Spain is your opportunity to explore this land of many cultures with your fellow Honors College students and expert professional guides. Our itinerary will move us from the art haven that is Barcelona to the spectacular architecture of Toledo. The route includes stays and tours in such iconic locales as Valencia, Granada, Costa del Sol, Seville, and Madrid. Students will emerge from this trip with a uniquely personal knowledge of one of the world’s most colorful countries.

The trip instructor, Honors Director Dr. Tiffany Sippial, is a Latin Americanist with a history of research and travel experience in Spain. Fluent in Spanish, Dr. Sippial has taught courses on the History of Spain and has conducted research in the Archives of the Indies, in Seville. As an award-winning author, Dr. Sippial brings both her expertise and her passion for the country to this once-in-a-lifetime study abroad trip.
