

Honors College Research Fellowship

Application for Honors College Research Fellowship

Applications must be submitted to the Honors College by the appropriate deadline listed below. LATE APPLICATIONS ARE NOT CONSIDERED. Notification of the award status will typically be made within 2-3 weeks after the deadline.

April 1 for Fall and Summer Semester | November 1 for Spring Semester

General Guidelines

The Honors College Research Fellowship program offers support to Honors College students—excluding National Prestigious Scholarship recipients—for research and research-related travel. Students will be required to apply for this research support, and awards will be determined by a committee established by the Director of the Honors College.

GUIDELINES:

- Applicants must be current Honors students in good standing (GPA 3.2 or higher) at the associated deadline.
- First preference will be given to applicants who are pursuing one of two research-intensive graduation distinctions: University Honors Research Scholar and Honors Research Scholar.
- Funding should relate directly to a student's approved research plan, and ideally to their Senior Experience, and requires faculty sponsorship.
- If seeking funding for conference travel support, the meeting or conference should be of regional or national importance, and the student should be presenting his/her research as part of the formal conference program.
- Approval of research fellowships will be limited to one fellowship per student per academic year.
- Research support provided by any other party (department, school, major professor, etc.) must be listed on the application form.
- The above criteria are the minimum for applying for research funding. Applicants should not assume that satisfying these criteria will automatically guarantee funding.

Fellowships will be granted based on factors such as the student's anticipated graduation date, conference location, and the student's GPA. The Honors College cannot guarantee that all applicants will be granted an Honors College Research Fellowship. Fellowship amounts generally range from \$500 to \$1000.
